

# Hult International Business School Delivers Agile syllabus

With Radtac Associate Professors

## Background

Hult International Business School is a global institution that lives by providing an exceptionally valuable and enduring education that brings together people, cultures and ideas from all around the world. The School encourages personal growth, intellectual integrity, global sensitivity, local engagement, and civic values, so that students are able to flourish in the global economy and are empowered to contribute meaningfully to their business and community.

## Radtacs services delivered

Hult utilise professors who have less of an academic angle and more of a practical angle. Hult employed Radtac in 2011 to create an Agile syllabus and courses for their master of social entrepreneurship qualification; and then run the courses.

Radtac provided:

-  Creation of an Agile syllabus to run within the Hult Master of Social Entrepreneurship syllabus
-  Creation of a course and practical exercises to match the syllabus
-  Running of the course within a university professorship delivery model
-  Marking practical assignments delivered by students counting towards their overall MSE.

## Results

Successful creation and delivery of university level Agile syllabus and courses.
